

Volunteers Needed!

Would you like to assist the Lee County Health Department in an emergency that requires mass dispensing of medications or vaccine to Lee County residents?

We are looking to fill all types of positions, some of which require professionals and some which any citizen could fill. We need healthcare professionals to dispense medication or vaccines, individuals who could provide site security, mental health professionals, pharmacists, and individuals who can assist with basic form completion and helping others fill out paperwork.

Several organizations have already agreed to assist us in the event of such an emergency. Thank you to:

Advance EMS Ambulance
Alliances Counseling Services
Amboy Healthcare and Rehab
Creative Printing
DC Computers
